09/23/2026

212 - 300 mm
300 - 500 mm
500 - 710 mm
710 - 850 mm
} sieves

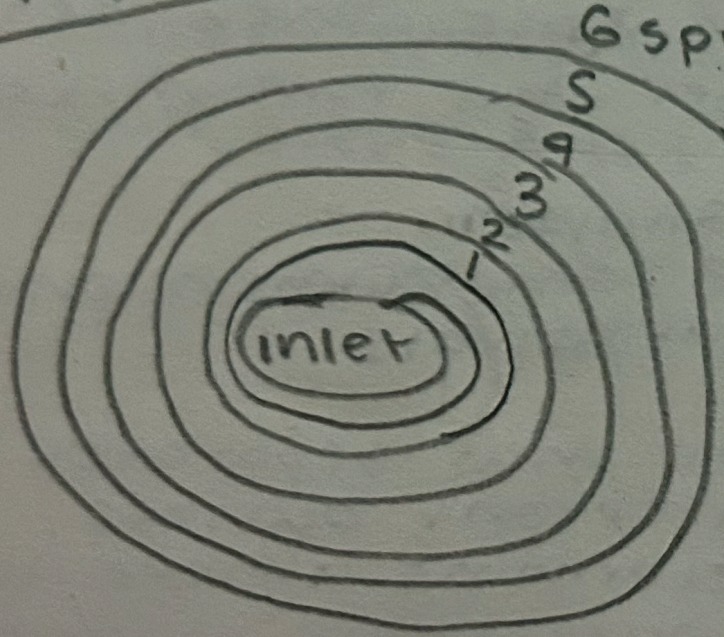

have sieve

$D_h = 1.5\,mm$

$\lambda_{150} = 0.100$ $\lambda_{300} = 0.200$ | $\lambda_{350} = 0.233$ $\lambda_{500} = 0.333$

$\lambda_{212} = 0.141$

we can aye the two cellet ranges different colors

$\lambda_{212} - \lambda_{300}$

$\lambda_{350?} - \lambda_{500}$
